UNIONTOWN, Dec. 6.—Connells-ville borough is again made defendant in a suit flied here yesterday by Aftorney R. S. Matthews in behalf of S. E. Frock and Joseph T. Crossland. No statement was filed with the claim having sewers about five years ago.

The plaintiffs claim that the borough through its agents and employes, did unlawfully and mallelously cross their lands in the McCleiland addition, back of Balsicy hollow, with its sewer. The borough was never given permission to cross these lots, but did so anyhow. The sewers are laid in all directions, and have damaged the lots to a considerable degree the plaintiffs aliese. The amount of the claim is not stated.

Efforts have been made to adjust the matter through Town Council, but that body has, it is elaimed, persistentially ignored the claims of the plaintiffs glamed the claims of the plaintiffs aliese of the plaintiffs aliese of the plaintiffs aliese. The amount of the claim is not stated.

The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp, and wholly dependent upon its action. The se dp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful-the soil in which the plant grows must be attended to Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful. Loss of hair is caused by the scalp drying up, or losing

its supply of moisture or nutriment, and when baldness occurs the scalp has simply lost all of its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions). The natural and logical thing to do in either case is,

feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should. Dr. Knowlton's DANDERINE

is the only remedy for the hair ever discovered that is identical

with the natural hair foods or liquids of the scalp. It feeds and nourishes the hair and does all the work originally carried on by the natural nature its or life-giving juices generated by the scalp itself. It penetrates the poles of the scalp quickly and the har soon shows the effects of its wonderfully exhibitating and lifeproducing qualities One twenty-five cent bottle is enough to convince you of its great

worth as a hir growing and har beautifying remedy-try it and see for yourself. Now on sale at every drug and toilut store in the land.

JOHN KURTZ,

FRIDAY EVENING, DEC. 6, 1907. EVERYBODY

There is everything in the business situation to justify confidence in the

The bank statements generally show that the banks are sound and sate. The very few exceptions will necessarily be discovered, and in the face sarily be discovered, and in the face of immediate and pressing domains some of them may have to go into liquidation. This is unfortunate, but it does not affect the situation seriously, for the reason that none of the small number of such suspensions in the sudded interest to will had to military duty. A town never suffers for having a crack milital company. Even the suspended banks them-

selves are perfectly solvent, but their currency has been loaned out and cannot be gotten back on demand. It cannot be gotten back on demand, it has been loaned on good securities and will be repaid when due. The depositors will get their money as the process of liquidation progresses.

The balks are loosening up with their currency supplies; the effects of the Government assistance are being felt; confidence is being restored; the mills and mines are slowly resum-

ing their former activity; the coke ovens are smoking up more vigorously; there is a good demand for iron and steel products; the rall orders must soon be filled; in short, it is the opinion of financiers in position to know at all. that we are on the rebound, and that from this time we will go forward again to normal commercial and in-dustrial activity.

The coming holidays will not per

DAWSON MEMORIAL CHURCH ADDITION

New Class Rooms Built at a Cost of About \$10,000.

DONATED BY MRS. S. B. COCHRAN

morial Congregation is Now Worth \$50,000-Program Arranged for Saturday Evening and Sunday Services.

The addition to the Cochran Memo-rial Methodist Episcopal church at Dawson will be dedicated Sunday December 8. Mr. Cooper of Unlantown was the architect. A committee, con sisting of the pastor, J. D. Bryson, N. A. Rist, George McGlil, J. L. Thomas and B. S. Forsythe, was appointed, representing Mrs. Sarah B. Cochran and the Trustees of the church.
Rev. J. D. Bryson and N. A. Rist, the active members of the committee. have had the work in charge, and bave succeeded in carrying out the plans of the donor, Mrs. Sarah B.

Work was begun in the month of June. The basement under the old Saniay school room was excavated for social rooms, with kitchen, clock. coilet and storage rooms. The believe and fuel rooms are on the west side, where a hot water system for heating has been installed. The basement is plastered and frescoed and completely furnished.

Ten class rooms have been added to the old Sunday school room with a large jecture room in the centre. The building has art glass windows, designed and made by Rudy Brothers of Pittsburg. There are ten windows in the lecture room, above the class rooms, which give a beautiful effect to the main room. The church and Sunday school rooms are carpeted with Brussels carpet and completely furnished. The addition, including the hot water heating system, cos about \$10,000.
The Rev. J. D. Bryson is serving his

sixth year. During his pastorate the church has been strengthened and built up. At the close of his first year the old parsonage on Galley street was disposed of. A lot adjoining the church was purchased and a new par sonage valued at \$10,000 was built by Mrs. Sarah B. Gocaran, making the present value of the church property about \$50,000.

This beautiful memorial church will

be an incentive to the people of Daw-son, as they recall the words, "Build thee more stately mansions, O, my soul; as the swift seasons roll, leave

thy low vaulted past.":
A cordial invitation is extended to enjoy the organ recital on Saturday evening, December 7, at 8 o'clock, and the dedicatory services Sunday, De

HOLIDAY SHOPPING.

The Connellsville Stores Are Fast Trimming Up in Christmas Attire for Santa Claus.

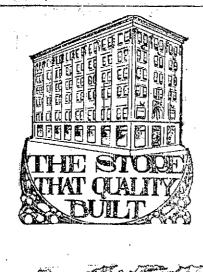

The local stores are fast taking on their holiday attire and are througed with Christmas shoppers these cool winter days. Beginning next week most of them will inaugurate the annual custom of keeping open evenings until the "night before Christmas."

Many of the business establishments are being decorated especially for the occasion, but in most lustances these so far are incomplete. Next week will see them in full holiday attire.

Local merchants are anticipating a heavy haliday business, atthough it is unlikely that the sales will be as large as during the past two seasons. The business depression will have its effect upon trade, but not to a great extent, it is believed.

The past year has been an excepitenally prosperous one, and even a sinck holding trade will not put local establishments behind 1906 in the voiume of business.

Patrons of Husbandry, CANTON, Mo., Dec. 5.—(Special.) The Missouri State Grange, Patrons of Husbandry, convened here in annu-al meeting today and will remain in session until the end of the week.

desirable articles for gift-giving is complete, and we court an early examination. We'll be very glad to lay aside anything that strikes your fancy and deliver it whenever and wherever you say. In this way you can get many of your shopping affairs off your mind, and rest assured that there will be no vexatious delays or mistakes on our part. And need we tell you, one and all, that your credit is one hundred per cent. good here -- as good as gold? You probably know it

Washington, Dec. 6.—An annual tax of \$1 on every burrel of beer brewed the United States for the creation of a "pormanent investment fund" of \$50,000,000 yearly for the development of the country's waterways is the proposal cerried in a joint resolution in troduced in the house by Mr. Acheson Pennsylvania. The preamble as seris the inadequacy of railroad track age to handle the country's fast grow ing business, points to waterways tension as the vital prerequisite to state and national development of re-sources and recites that the revenue of the proposed high license tax on beer should be applied annually "not as an ordinary expense, but as a permanent

The senate elected William P. Fryd of Mane its president pro tem, an office occupied by him continuously since February 7, 1896, except during the senate. Senator, Frye was nomnated by Senator Allison for this honor. Senator Culberson offered an amendment substituting the name Sena or Daniel of Virginia for that of Mr. Frys. Senator Daniel said the suggestion of this great honor was so sudden he hardly knew how to respond to it. With a glance around the sena's and with a faint smile he asserted that if elected he would serve, but if he should not be elected he ould not feel very badly about it. The amendment was voted down and

HILL FAVORS WATERWAYS

Hallway Magnate Addresses the Rivers and Harbors Congress. Washington, Dec. 6.—A notable feature of the rivers and hurbors con-gress in session in this city was the address delivered by James J. Hill president of the Great Northern Railway company, who was introduced to the congress as "a wizard of transportation and one of the greatest rail-

road builders in the world."

Mr. Hill created great enthusiasm among the 2,500 delegates by declaring that the railroads of the country would support cordially any propor plan for the development of the legitimate waterways of the United States. He produced figures to show that the tradic of the country had become so great and was increasing so trement dously that it was beyond the physical power of the railroads to handle it. He made a most important and significant statement of the attitude of railroad men toward legislation which has been directed against rail arriers in America and declared that all the railroads are new increasing to core.

We Begin December With Sweeping Reductions in Millinery

Every Hat in the Store Formerly Priced Above \$10 Can Now be Had at 1/4 Off Regular Prices.

This means of you have admired a hat priced \$30 00 you can now buy it at \$22 50, or a \$25.00 hat at \$18.75, and so on down to the \$10 00 hats at \$7.50.

This does not mean just a little group of hats from which to choose; it means you can select any hat in the store formerly priced between \$10 00 and \$30.00 at the littlest prices we've ever quoted at the beginning of December.

It is hardly necessary to describe these hats for the exceptional style and character of Wright-Metzler Millinery is too well known to need descriptive detail Every hat that we present is authoritatively trimmed, no guess work. The trimming of every hat is based upon absolute knowledge of what is correct. This is not a sale of ready made millinery, but of most exclusive and richest collection of women's hats in this section. The sale begins
